

THEY'VE BEEN AROUND SINCE 1948!

Since 1948 Fireball has offered a quality line of glow plugs to fit every need.

The Miracle Glow Element is made of a superior platinum alloy that gives up to 3 times longer life than the average glow plug. The wider coil gives you a competitive edge. The improved COLOR CODED INSULATION keeps the plug from blowing out even under high compression.

Fireball Glow Plugs are available in three heat ranges in both long and short reach.

The H30 Hot plug burns extra hot. It can handle voltages from 1.2 to 3 volts. The H30 gives fast starts in all weather and is an antiflood plug. Available in Long and Short reach. Color Coded RED. Cost \$2.85

The S20 Standard plug and R/C plug both handle voltages from 1.5 to 2 volts. Designed for long life and dependability they are available in long and short reach. Color Coded YELLOW the Standard is priced at \$2.85 and the R/C is priced at \$ 3.20

The SC10 Super Cool plug handles 1.5 volts. It is designed for high temperature and high compression use. Color Coded BLUE it is available in long and short reach. The SC10 plug is priced at \$3.20

FIREBALL GLOW PLUGS

HIGHEST QUALITY AT A REASONABLE PRICE!!!!
